

Key worldwide figures 2008

97,406 employees in more than 40 countries

79.6 million customers

10.1 billion euros revenue

801,000 corporate clients

63% of revenue from outside France

45,894 kt of collected waste

66,592 kt of treated waste

8,500 kt eq. CO₂ greenhouse gas emissions avoided

852 treatment units

18.5% material recycling rate out of treated waste

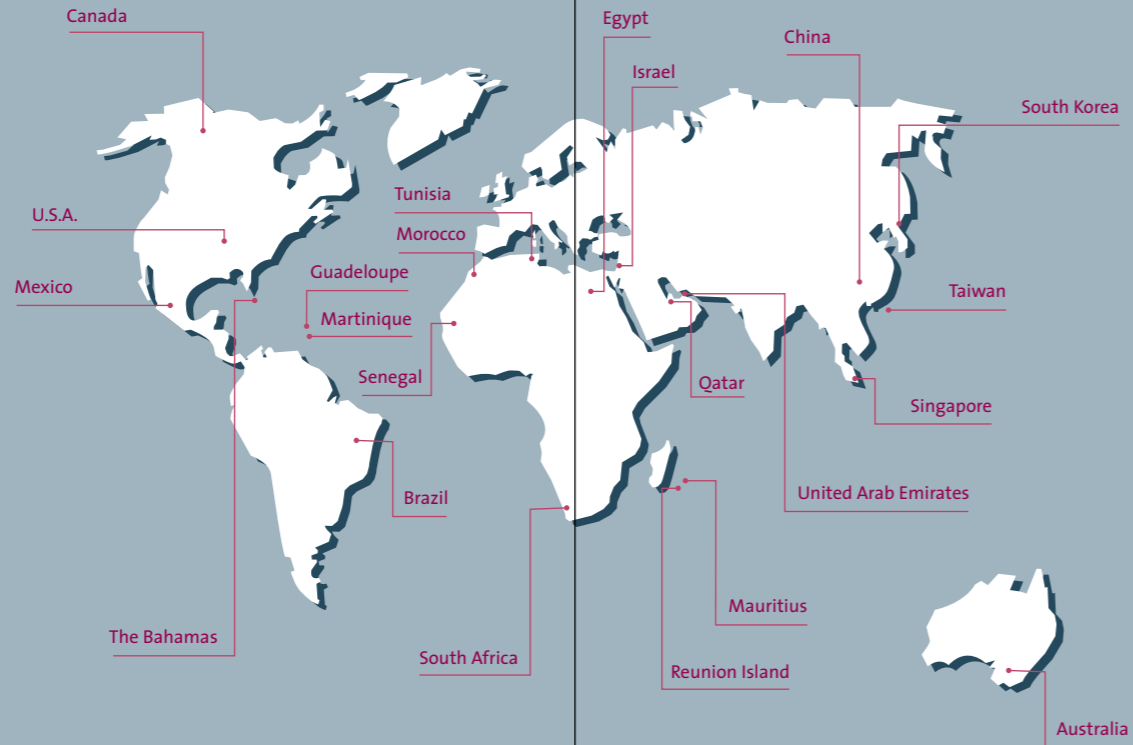

3.1 million MWh thermal energy

5.2 million MWh electricity sold

1 kt = 1,000 tons

Turning WASTE into a RESOURCE

EUROPEAN sites

April 2009 - Veolia Environmental Services - RCS 572 221 034 - Copyrights - Corbis - Created by: Document printed on paper made up of 50% elementary chlorine-free pulp using virgin fibers from sustainable management forests and 50% recycled pulp. Made without heavy metals. Printed with 100% vegetable-based inks and varnish. Imprim Vert label.

Key Worldwide
Figures 2008

Our ACTIVITIES

COLLECTION

Industrial waste
22,219 kt
incl. Non-hazardous
20,194 kt
incl. Hazardous
2,025 kt

Municipal waste
21,241 kt

Non-hazardous liquid waste
2,192 kt

Recycling, MATERIAL RECOVERY

Sorting centers **339**

Hazardous waste recycling units **35**

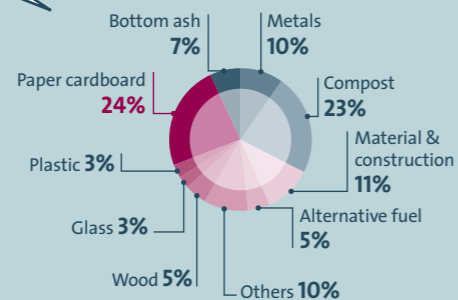

Recycled waste
11,231 kt recycled
including
10,761 kt
non-hazardous waste

SOIL remediation

Polluted soil treatment units **15**

Polluted soil treated **383 kt**

In % OF RECOVERED TONNAGE

Composting, AGRICULTURAL RECOVERY

Composting units **125**

Composted waste
2,732 kt treated
1,160 kt produced

Incineration, ENERGY RECOVERY

Waste - to-energy plants **100**

Incinerated waste
12,821 kt
Incl. hazardous waste
1,056 kt

Landfilling, BIOGAS RECOVERY

Landfills waste
37,543 kt
Incl. hazardous waste **751 kt**

Landfills **168**

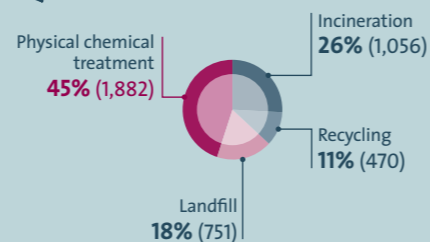

HAZARDOUS WASTE management

Treatment units **142**

Physical chemical treatment centers **70**

Treatment
4,159 kt treated
incl.
470 kt recycled

HAZARDOUS WASTE TREATMENT by process (kt)

Our INDICATORS

ENVIRONMENTAL DATA

CERTIFIED sites

ISO 9001 **1,154**
ISO 14001 **749**
OHSAS 18001 or equivalent **602**

WASTE-TO-ENERGY

Thermal energy sold **3.1 million MWh**
From waste-to-energy facilities
2.5 million MWh
From landfills **531,000 MWh**

Electricity sold **5.2 million MWh**
From waste-to-energy facilities
4.2 million MWh
From landfills **1,055,000 MWh**

GREENHOUSE GAS emissions (in Kt équivalent CO₂)

Avoided emissions - sale of electricity, thermal energy and materials recovery **8,502**

Direct CO₂ emissions **5,931**

Direct CH₄ emissions **6,927**

Indirect emissions - electricity consumption **233**

SAFETY

Frequency rate* **24.9**

Severity rate** **0.87**

-11.8% workplace accidents (in numbers) between 2007 and 2008

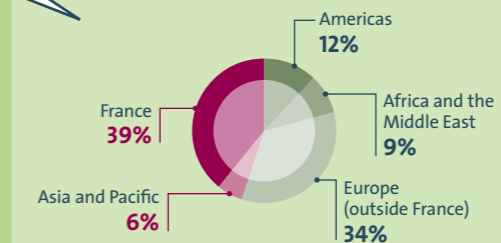

*Number of work accident with sick leave x 10⁶ / number of hours worked

**Number of workdays lost due to work accidents x 10³ / numbers of hours worked

SOCIAL DATA

Staff **97,406**

Staff breakdown BY GEOGRAPHICAL AREA

134,748 participants took a training course in 2008

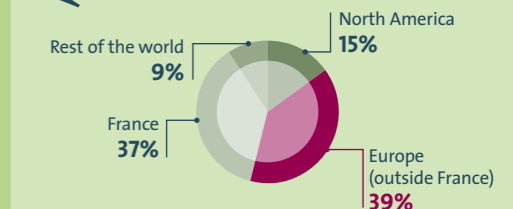

56,387 of them participated in safety training
